STRATEGY, SYSTEMS,
AND SPEED TO
SCALE YOUR IMPACT

We're so glad you're here!

At NGNG™ (standing for NoGutsNoGlory), we intimately understand that creating lasting impact begins with alignment, which to us means living and working in a way that honors your deepest values and beliefs. We've helped thousands of authors and entrepreneurs find and use their authentic voice since 2007 and are excited to bring our expertise to your journey next!

A great message alone won't deliver the impact and revenue you seek. For that, you need a strategic approach that maximizes your differentiation (so you stand out), generates a consistent flow of "qualified" leads (to save your time and protect your energy), AND conditions your audience to buy. Amber Vilhauer joyfully gives you strategy, systems, and speed to scale your books and business.

We've orchestrated more than 1,000 bestseller book launches with first-time and celebrity authors. Those clients have gone on to sell tens of thousands of copies of their books and landed on stages in front of upwards of 15,000 audience members for a \$40,000+ speaking fee.

We work with some of the most heart-centered, innovative people on the planet. Those who really want to course-correct humanity socially, economically, and environmentally. NGNG™ is the engine to power their voice, growth and impact.

We live in an era when misinformation and artificially created content are on the rise. This is breeding consumer distrust, causing traditional marketing and sales strategies to plummet in effectiveness. The major problem? The vast majority of entrepreneurs are hustling and grinding, operating out of alignment. Entrepreneurs will identify their blind spots, overcome resistance, and strengthen their core to then lead their company into greatness.

There is one proven way forward to ensure your business survival and create sustainable long-term growth in your profit and impact. You must optimize your books and business platform by becoming authentically self-expressed in sharing your cause. Only then will your ideal buyers be attracted to you and convert more naturally, allowing infinite impact and personal freedom to inevitably follow.

“

“After reading this book, I felt an overwhelming sense of clarity in organizing my thoughts and envisioning the next steps for my business. In today's ever-evolving business landscape, where clear communication and strategic vision are paramount, this book delivers both. I highly recommend it to any entrepreneur. Share it with your team and peers—it's a game-changer.”

And I believe it aligns quite well with my skill set, my passion, and my goals. Thank you for sharing your story. It's helpful and enlightening to hear from other people who have struggled in their past and were able to come out stronger and more fulfilled on the other side. Your bravery, courage, and perseverance are commendable."

BECOME A BESTSELLER

A successful book launch is the fastest way to scale your following, revenue, and impact.

The Biggest Mistakes Authors Make:

1. Not willing to go “All In.”
2. Not giving themselves enough runway (time) to market and launch.
3. Spending their time doing all of the day-to-day operations which should absolutely be delegated out to someone else.
4. Not having a powerful plan that is rooted in proven marketing methodologies.
5. Not putting aside a bigger budget for the marketing and book launch.
6. Not treating this book as a product that can be leveraged to absolutely create a 7-figure business.

BESTSELLER BOOK LAUNCH BLUEPRINT PROGRAM

One-time \$5,000
payment plans available

This premium program features 10 hours of detailed step-by-step training giving authors the exact strategies used to make more than 1,000 books bestsellers. This forever-access program includes all the email templates, worksheets, protocols, and step-by-step guidance.

Through 5 core modules containing over 25 lessons, you'll learn how to properly prepare for your launch, grow a powerful platform, leverage your network effectively, execute a smooth launch timeline, and scale your success for long-term impact. Beyond just selling books, this course helps transform your book into a business asset that can generate speaking engagements, product sales, and media opportunities.

Beyond the depth, breadth, and detail in this course, BBLB is unique from other programs because:

- Amber created it based on actual bestseller book launch campaigns where those authors invested \$80,000 or more for us to do the work for them. You'd get the exact emails, spreadsheets, social media post examples, book sales pages, bonus packages and more from those campaigns.
- Those authors went on to not just hit Amazon bestseller, but achieved Wall Street Journal bestseller for hardcover in non-fiction entrepreneurship "organically" (authors have otherwise paid a vendor \$65k to guarantee that result), land \$40,000 speaking engagements, and multiple have created 7-figure earnings off of their book launch.

“Amber delivered a product that was above and beyond what I expected. Working with Amber, I was at peace throughout the entire process.”

Kalvin Evans

“Amber is smart, fast, friendly, efficient, and a wealth of knowledge. She not only met expectations, she exceeded them.”

Dr. Christina Bjorndal

“Amber... What's impressive about you is you're always on the cutting edge of what's happening in this EVER CHANGING AT THE SPEED OF LIGHT Online Marketing World.”

long-term payment plans available

Whether you're a first-time author or perennial author... whether you've hit #1 or aspire to ... having a loyal, highly-experienced, and innovative team who is ALL IN for YOU is key.

Our launch work is 100% customized to meet your budget and goals. We've supported launches as low as \$10,000 and we have had clients who are in a 12-month engagement with us for \$100,000. The difference is in the amount of time we work with you and your team to build up a rock-solid business structure for lasting, long-term results.

Our work together isn't just about a book launch. This is about building up your entire online platform, getting you and your message out, building your influence, training your team, and creating structure and harmony within your organization.

Since all launch work is customized, we'll need to get on the phone and discuss your timeline, goals, team and platform before a quote can be given.
